2 OTF Rules

- 2.1 These are the Rules of the MS France OTF which comprise generic rules as well as specific rules that are applicable to each Market Segment (“**Market Segment Rules**”). The Market Segment Rules are set out in Section 18 of these Rules.
- 2.2 In the event of any conflict or inconsistency between the generic rules and the Market Segment Rules, the Market Segment Rules shall take precedence. Together, the Rules and Market Segment Rules (as amended from time to time) are referred to as the **OTF Rules**.
- 2.3 MS France may issue a Market Notice, operational procedures and information amending or supplementing the OTF Rules from time to time. The OTF Rules and any substantial amendment to the Rules within the meaning of Article 8 of Commission Implementing Regulation (EU) 2016/824 of 25 May 2016 are subject to the approval of the AMF.
- 2.4 The OTF Rules form part of the contractual arrangements between MS France and the Client. The Rules supplement the Terms of Business. In the event of a conflict between the provisions of the Terms of Business and the OTF Rules, the OTF Rules shall prevail.

- 2.9 Trading Privileges are granted exclusively to a Client or Responsible Person and each Client acknowledges and agrees that it will take full responsibility for its access to, or use of the MS France OTF, and compliance with these OTF Rules.
- 2.10 These OTF Rules, their execution and any other obligation arising out of or in connection with them shall be governed by and be construed in accordance with the laws of France regardless of the laws that would otherwise apply under applicable choice-of-law principles.
- 2.11 The courts of Paris in France shall have exclusive jurisdiction to determine any dispute with respect to any matter arising under or in connection with the operation of MS France or the OTF Rules.
- 2.12 In the event that a Client or Responsible Person has a complaint in relation to the service provided by MS France, the Client or Responsible Person shall inform in writing MS France who will assess whether the complaint is consistent and will raise the matter to MS France's management staff as appropriate.

- 8.2 When a Trade Request is submitted to buy or sell an Instrument, discretion will be exercised as to whether to execute some or all of it through the MS France OTF or by other means (Order Discretion), in accordance with the Order Execution Policy, which is published on the Website. However, if it is specified that the Trade Request should be executed through the MS France OTF, it will be treated as a specific instruction to do so. The OTF Rules apply where any Trade Request (or part thereof) is executed through the MS France OTF and from the point at which the Trade Request (or part thereof) is submitted to the MS France OTF. Otherwise, the Terms of Business apply.
- 8.3 Where a Trade Request is executed through the MS France OTF, discretion will be exercised by deciding whether, when and how much of the Order to match with another Order and on what terms at a given time (Execution Discretion). This discretion will be exercised on a case by case basis consistent with the MS France Order Execution Policy, including the trading interests in the system and the different execution mechanisms that are available. The execution mechanisms could include voice trading and/or use of an electronic system to enable the matching of Trade Requests. Clients agree to the exercise of discretion in accordance with the Order Execution Policy.
- 8.4 Discretion will also be exercised by deciding whether to retract or adjust some or all of an Order from the MS France OTF. MS France may review a trade based on its analysis of market conditions or upon a request for review by a Client. MS France may adjust trade prices or cancel trades when such action:
- is necessary to mitigate market disruptive events caused by the improper or erroneous use of a Trading System or by system defects; or

Clients consent to the execution of their Orders on a matched principal basis each time they access the MS France OTF, submit a Trade Request, or request services from MS France in relation to any product that is subject to execution on a matched principal basis as defined in section 18, article 18.3.
- 8.7 MS France's Affiliates may not enter into a Transaction with a Client on a matched principal trading basis.
- 8.8 Alternatively, once an Order has been matched for a product that is subject to execution on a Name Give-Up basis, MS France will affect a Transaction between two Clients so that each is party to the transaction has obligations to the other. Therefore, execution of the Order results in only one Transaction between both Clients (name give up). In this case, MS France or any of its Affiliate may act as agent for one or both Clients, binding one to another, but MS France or its Affiliate will not itself be party to the Transaction. The Clients shall bear the responsibility of settling the transaction between themselves. In this case, MS France will disclose Client details to one another. Clients consent to the execution of their Orders on a name give up basis each time they access the MS France OTF, submit a Trade Request, or request services from MS France in relation to any Instruments.
- 8.9 Clients are responsible for satisfying obligations under each Transaction entered into on the MS France OTF, including through any Responsible Persons. Each transaction entered into during the session will be confirmed and reported separately. The session will end when, to the extent possible, all buying and selling interest at the price have been filled. Any unfilled bid or offer at the price at the end of the session will be treated by the Responsible Person as arresting bid or offer depending on the instruction of the Client.

15 Transparency Waivers and Deferrals

- 15.1 MS France with respect to Transactions on derivatives, bonds and structured products, may use, as per Article 9 of MiFIR, the Transparency Waivers relating to:
- (a) orders that are large in scale compared with normal market size and orders held in an order management facility of the trading venue pending disclosure;
 - (b) actionable indications of interest in request-for-quote and voice trading systems that are above a size specific to the financial instrument, which would expose liquidity providers to undue risk and takes into account whether the relevant market participants are retail or wholesale investors;

- (c) derivatives which are not subject to the trading obligation specified in Article 28 and other financial instruments for which there is not a liquid market.

MS France, as an OTF Operator will fulfill its obligations to publish transparency information about an Order submitted to the MS France OTF or Trade executed to the MS France OTF through a dedicated Approved Publication Arrangement (APA). The APA supports both the application of pre-trade waivers and post-trade deferrals. The APA applies deterministic logic, on order and trade information, based on the Annex I of Commission delegated regulation (EU) 2017/583 of 14 July 2016. The APA determines if the instrument qualifies for a waiver/deferral based on order or trade data provided by MS France OTF. The APA makes publicly available, in a machine-readable format, the transparency report.

15.2 MS France has applied for the following waivers as per EU regulation No 600/2014, Article 9:

- (a) Pre-Trade

- (b) Post-Trade
 - Indefinite Aggregation- Article 11(3c) of MiFIR
